WHO WE ARE

QTracer B.V. is an Added Value Partner in the delivering of software and services for healthcare accreditation and continuous improvement

WHAT WE OFFER

- * *Worldwide referrals*
- * *Proven product for JCI, Qmentum and ISO 9001 accreditation*

PARTNER BENEFITS

- * *Profitable revenue sharing*
- * *Opportunity to grow your business*

The patient safety and risk management software market is estimated to grow from a value of USD 1.3 billion in 2019 up to a value of USD 2.2 billion by 2024. The high grow in this segment is attributed to the increasing number of adverse events to patients across the globe and the effective utilization of governance, risk and compliance (GRC) solutions. GRC solutions provide safe, high-quality care to patients while maintaining compliance with industry standards and regulations.

Our ambition is putting patient safety in the heart of healthcare and helping health professionals make care safer by providing a dedicated web-based tool for continuous improvement and accreditation. Apply if you share our values and you feel excited about the opportunity of growing together.

Becoming our partner is super easy, just send us an e-mail at info@qtracer.com. Give us a brief introduction of yourself or your company, then you are ready to grow!
